Workshop on International Trade

The Trade and Industrial Organisation Group of ERSA is pleased to announce the following event:

Contemporary Analysis of International Trade Monday 23 January – Wednesday 25 January 2012 North West University, Astro Villa, Potchefstroom

This workshop builds on a series of earlier workshops arranged by ERSA's Trade and Industrial Organisation research group. Following our 2010 summer school, we will continue the review of material from Robert Feenstra's postgraduate textbook, *Advanced International Trade* (Princeton UP, 2004), concentrating on topics not covered in the 2010 meeting. Following the 2011 workshop there will also be the presentation of some new research. Topics covered will include (a) trade and growth, (b) the political economy of trade policy, (c) firm-level data and international trade, (d) microeconomic evidence on pricing behaviour and (e) geography and trade.

If you wish to attend the workshop please contact Yoemna Mosaval (yoemna.mosaval@econrsa.org) by 16 December 2011. We hope to see again many of the participants from our previous workshops. New participants are always welcome, however, and PhD students are particularly encouraged to apply. If you have not attended one of our previous events could you please supply a short paragraph outlining your interest in the subject.
